

May 10, 1951

Mr. Frank Axtens
Radio Station WXPW
University of Pennsylvania
Philadelphia, Pa.

Dear Frank:

Forgive me for writing at such a late date, but I have been snowed with the usual academic last-minute papers and hour tests.

I was hoping to make it down that way this weekend, but I still have a paper to write and much grinding to do before the finals, so will be tied up.

I would like to get down that way to see your station, but the pressure is definitely on, and as I have to get to my job in Alaska as soon as school is over, it looks as if I won't be able to make it this year.

The Network Convention down at Princeton was certainly encouraging. The interest of all the stations present indicates that we should have an even better year during '51-'52. George Mealey, the pillar of WHRB will be down in New Haven next week, and I will be interested to hear the latest from Cambridge. They are the only weak link at the moment, and I hope that someone can build a fire under them to bring HRB up to par.

Thanks again for the invite and I am very sorry to miss the big weekend, as I am always game for a drink-'em-up. If you're around the New Haven area next fall, be sure and give me a call, as I expect to be here from the 10th of Sept. on.

Cordially yours,

David S. Robinson
